Let Us Join Hands

**CREATE A STRONG PLATFORM
FOR ALUMINIUM CASTING INDUSTRY**

www.gdctechforum.com

WELCOME

To GDCTECH FORUM

Aluminium Casting Industry is growing quite rapidly due to the importance of Light Weighting Programme of the automobile industry. If this growth rate is to be enhanced then the die casting industry needs to be competitive. This can be achieved only through improved productivity, quality and reduced costs through technological upgradation.

To achieve this, upgradation of Plant & Equipment, Technology Development, Enhancement of Knowledge, Innovations and Training of Manpower are critical and essential factors. One needs to remain in touch with the latest developments in the casting field globally.

A few years back, a small group of enthusiastic and dedicated people from industry, defense establishments and R & D organizations came together to form the GDCTECH Forum.

Now we invite every one concerned with this industry to extend support to the Forum by way of contributions. This will help make it better and stronger.

Welcome To
GDCTECH

OBJECTIVES

- Promote the growth of the industry
- Technical Information Imparting / dissemination through Exposition / Conferences / Magazine / Liabrary
- Address the needs / concerns of the Casting Industry, Alloy Making and Tooling Industry.
- Develop the skills of people through open Training, In-house and Educational Programmes
- Assist MSME through Solution Centre
- Represent as the Voice of the Industry

VISION / MISSION

- Looking forward always.....
- Future Ready
- Partner in innovations
- Platform for Networking and Knowledge Enhancement
- Understands and commits to provide necessary assistance for needy

**VISION- Not just to see the future
To march towards achievements**
